

## GOVERNOR'S VETO OVERRIDDEN BY THE LEGISLATURE

The Six Mile Liquor Law was Passed by the Same Vote as Obtained in Both Branches Originally. Attorney General Decides The Legislature has All Power to Decide What is Emergency Legislation

### EASY DIVORCE BILL WAS KILLED BY A LARGE MAJORITY VOTE

Eight Hour Law for Women Introduced in House. Probable that the Woman Suffrage Bill will be Submitted at Fall Election. Recall Election Will Not be Special.

Phoenix, April 4.—A summary of legislative work during the past week is presented below:

By the same vote the bill had originally been adopted by in both branches of the legislature, senate bill No. 33 the six mile liquor law, became the law of the state Friday, the veto of Governor Hunt notwithstanding. It had been decided by a caucus of the democratic members this morning that the veto would be overridden, but there was a delay until late in the afternoon session before the vote was taken. Attorney General Bullard had been asked for an opinion concerning the rights of the legislature to create emergency measures and action on the veto was taken immediately following the reading of his opinion in the senate and afterward in the house. Bullard held that the making of emergency legislation was an exclusive prerogative of the legislature membership and the veto was non-consequential as to the validity of the proposed law. The legislature could pass a bill as an emergency and the governor might veto, as was the case in this instance, but when the legislature and the governor have settled their differences by legislative action on a veto then the incident is closed, and it is a matter that the law officers of the state cannot legally determine.

The spirit of the constitution, however, he stated, was the only matter of state emergency and appropriations for state institutions should be exempted from the referendum clause. An established rule, however, is that those who make the laws can best determine their meaning, and if the two-thirds of the legislature say an emergency exists, then an emergency does exist.

**Easy Divorce is Killed**  
In the house the divorce laws similar to Nevada which had been proposed by Mohr county members was killed only by two others than the introducer supporting the bill on final passage.

Many petitions for and against the bill requiring all miners to speak English were received by the governor. A keen contest is anticipated when the bill comes up in the senate. County clerks from all parts of the state report a big increase in applications for naturalization since the agitation began.

An eight hour law for women, similar to that of California, was introduced in the house by Craig, of Bisbee.

By unanimous consent, Worsley introduced a bill to regulate life insurance companies organized outside of the state, to do business in the state, which provides for the investment of a portion of their reserve within Arizona; also one prohibiting the employment of people affected with tuberculosis in public institutions.

Harrison, to provide for the investigation of the water resources of Arizona, in co-operation with the United States government and to make an appropriation for the expenses of such investigation.

Loving, relating to corporations and providing a method for the organization of them under the laws of this state, prescribing the requirements, duties and liabilities thereof and granting powers to the corporation commission to enforce the provisions of this act.

Wessel, to provide for the organization, administration and government of irrigation districts, and for the election of officers and defining their duties.

Worsley, to regulate and provide the conditions under which life insurance companies do business in the state of Arizona, and to provide for the investment of a percentage of their premiums in Arizona securities.

Worsley, prohibiting the employment of tuberculous persons in the public schools.

Worsley, providing for state board of equalization of three members; to finance.

Hughes, taxing refrigerator and sleeping cars operated within the state, including buffet, parlor and dining cars; referred to finance committee.

Robert, providing for licensing hunters of wild birds and wild animals, and providing for an appropriation of \$500 to put it into effect; to live stock and forestry.

Wood of Maricopa, to select a site for the industrial school. This bill provides for a commission of three appointed by the governor; that they shall meet within ten days in the office of the auditor and elect one of their number as its chairman; the site selected must not be closer than three miles to a town or village; must be

within an irrigation district and may be selected from state school land.

Hughes, relating to railroad relief societies to labor, in reference to the appointment of regents of the university, providing that they shall be seven in number and not more than four of the same political party.

Davis in reference to foreign insurance corporations, to private corporations; relating to sureties companies, introduced at request of attorney general, to private corporations.

Wood of Maricopa—in reference to registration of electors in incorporated towns and cities; to suffrage and election.

Lovin—Providing for a mineral exhibit at the San Francisco exposition. This bill provides for an appropriation of \$60,000, covering a period of three years, or \$20,000 each year.

Hughes—Prohibiting running of engines when steam is escaping from locomotives; to labor.

The constitutional amendment and referendum committee submitted two reports on senate bill No. 1, the judicial recall. The majority report recommended that it be submitted to the voters at the general election in November, while a minority report by Wood of Yavapai provides for its submission at a special election on July 3.

Bill introduced in the senate by Senator Brown of Pinal appropriating \$17,500 for the work of the Arizona Agricultural Experiment station. Of this amount \$6,500 is for the continuation of dry farming experiments near Prescott and Snowflake and in the Sulphur Springs valley; these experiments are to be conducted at not more than three points to be selected by the officers and with due regard to conditions, favorable to the growth of crops by scant rain fall and to the accessibility of such experiments to those interested in results obtained.

An act appropriating \$150 in each county in the state for the purpose of purchasing a scholarship in the University of Arizona at Tucson introduced by Whipple of Greenlee and an act designed to legislate James McGee out of the sheriff's office in Pinal county, introduced by Lynch.

### THE EAGLE MINES

Development Work Proceeds Rapidly in Competent Hands

W. M. McCoy, for years with the Shannon Copper Co., and now manager of the Eagle Gold & Copper Mining Co., was in the city on Wednesday to attend a meeting of the directors. The company owns twenty claims four miles northwest of Morenci and some of them already produced considerable ore, mined in the fashion of years ago. There is a five stamp mill on the property which is now operating on free milling gold ore which runs about \$24 per ton, nearly all of which is saved on the plates. On March 16th, a car of ore was shipped to the Shannon smelter that averaged 7.45 per cent copper and also values in silver.

The property embraces a variety of minerals, gold, silver, lead and copper veins being carried in different sections. Galena ores carrying gold, silver and lead has been tested to values of \$51 per ton. A shaft now 40 feet deep is being sunk on the vein which is one and one half feet wide in the shaft bottom. Test assays of a rich streak in this vein have shown as high as \$187 per ton.

All the development work at present is carried by the ores shipped to the smelters. A car of the galena is now being prepared for shipment to El Paso. The copper deposit is said to be very large and virtually a surface proposition easy to mine and handle. Shipments will be kept up from ores output in the development process.

Mr. J. J. Hall a mill man and miner of long experience in California has charge of the mill and meeting with good success. He is greatly impressed with the property and calls it a winner.

Among the Clifton people interested in the Eagle are: W. J. Riley, cashier of the First National Bank, E. V. Horton, John R. Hampton, John R. McRea, M. H. Kane, E. C. Bunker, and W. M. McCoy.

## INDEPENDENTS WIN MILWAUKEE ELECTION

Majority of Combination Democrats and Republicans Over the Socialist Ticket Was 17,000. Non-Partisan City Election Law to be Passed

Milwaukee, April 2.—With a flood of non-partisan ballots, Milwaukee voters today swept from office, the city's widely known Socialist administration, installed a non-partisan mayor, board of alderman and county board of supervisors and probably eliminated every national political party from participation in future municipal elections in the state of Wisconsin.

For as a result of the non-partisan victory in the city of Milwaukee, the state legislature at a special session soon to be convened, is expected to pass a distinctly non-partisan city election statute. The Socialists defeated such a measure at the last session of the legislature, but today's rout was said practically to have laid Socialist strength in the state general assembly. Nearly complete returns from the 148 precincts in the city show that Dr. Gerhard A. Bading, the non-partisan candidate for mayor, defeated Mayor Emil Seidel, Socialist, by a majority of about 17,000. From the head of the ticket down through the common council and county board of supervisors, the voters piled on equally large totals for candidates on the non-partisan ticket.

## FLOOD DAMAGE BY MISSISSIPPI FEARFUL

Levees Have Broken in Many Places. Thousands of Acres are Inundated and the Property Loss Will Be Great. Eight Lives Claimed

ST. LOUIS, Mar. 4.—The area affected by the flood caused by almost unprecedented volume of water in the Mississippi, was not extended a great deal yesterday but the situation at the deluged centers is becoming more menacing. Two more levee breaks were reported near Chester, Ill., where 30,000 acres of farming land was inundated.

Twelve hours of sunshine and slight check in the rise of the river has combined to give the general situation a more optimistic outlook in the opinion of the government engineers, who said last night that if the stage at Memphis does not go over 45 feet the levees will hold. The weather forecaster at Memphis, however, urged managers of railroads entering there from the west to warn inhabitants of those districts to move to higher ground.

The number of lives lost was brought to eight yesterday when the death of three railroad men near Fulton, Ky., was reported, and two more were drowned near Clarksville, Tenn. The latter drove off the road into overflow water of the Red river.

Hickman, Ky., is the worst sufferer. The 2,000 inhabitants of the town were augmented yesterday by the arrival of 1000 refugees from Dorena, Mo. The food supply at Hickman will last three more days. No trains have been in or out of the town for several days, and foods and tents enroute there are held up by washouts.

At Columbus, Ky., which was the first town inundated, the situation is grave. Residents are leaving the city rapidly and there is much suffering in outlying districts. The damage in that vicinity is estimated at \$100,000.

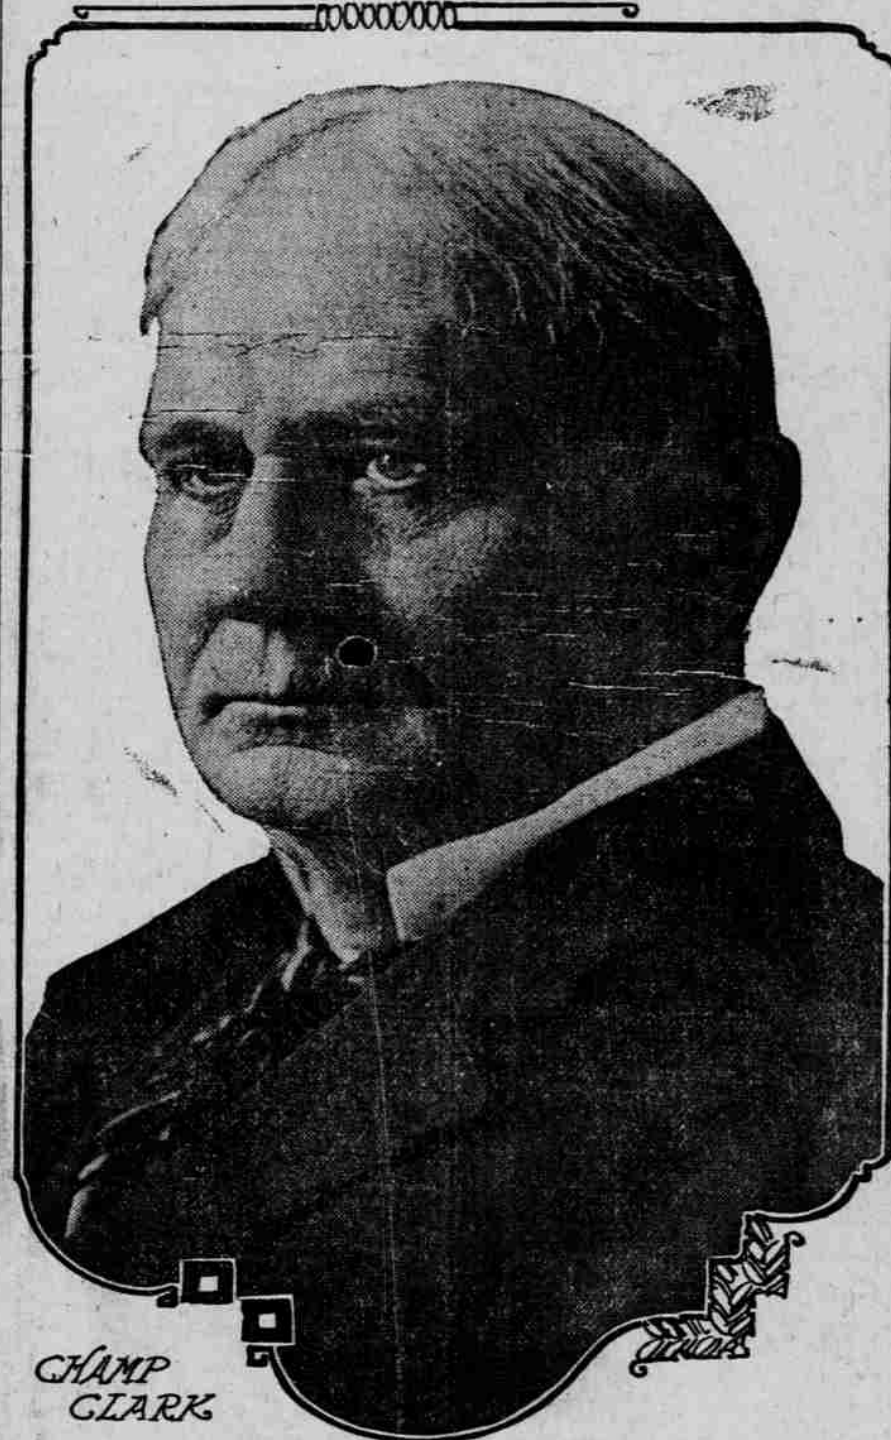

Damage at Memphis is estimated at \$250,000. About 1200 persons have been driven from their homes. The gas plant was put out of commission. It is estimated that fully 300,000 acres of farm lands in Kentucky, Tennessee, Missouri, Arkansas and Mississippi are flooded and probably 900,000 more are untitled because of fear that the levees may break.

### BU-L'S HAT IN THE RING

Santa Fe, N. M., April 2.—When word was received here from Washington this afternoon that Albert B. Fall had drawn the senatorial term that expires next March, William H. Andrews immediately announced his candidacy as Fall's successor. It was the withdrawal of Andrews from the race last week that made possible the election of Fall and Catron.

The Spanish-Americans, following Andrews' announcement, began to line up their supporters, insisting that they, too, gave way in the selection of the first two senators from the state and consequently they should now be allowed to name one of their race as successor to Fall.

The present legislature will make the choice of a man to succeed Fall, but whether at the present session or at the session that convenes next January will be determined only after a bitter fight.

Former leader of the minority in congress, and now speaker of the house, Champ Clark has plenty of record on which to base his candidacy for the Democratic nomination, and his boomers are taking every advantage of it. Mr. Clark has been active in congress for so many years that his position on most questions is well known to the public. Missouri is for him strong since the retirement of Joseph Folk in his favor.

## Latest World News at a Glance

Chicago Union carpenters will strike for 65 cents an hour wage.

The first woman passenger was carried in an aeroplane across the English channel April 2.

The dollar-a-day pension bill was defeated in the Senate and the Smoot substitute bill passed.

Los Angeles women now have a paper of their own, by far and to the women of elsewhere.

Thomas Campbell of Butte was elected president of the Western Federation of Miners over C. W. Moyer.

Unless explosives are permitted to be sent into Mexico all mining operations will soon be stopped.

The lower house of congress passed the wool tariff bill 189 to 82 only two democrats voting against it.

The Massachusetts legislature has turned down all woman suffrage legislation for the year 1912.

The enrollment of students at the University of Arizona this year is 301 which is fifty per cent greater than in 1911.

Half a million coal miners are on strike in the United States but it is thought the "vacation" will be a short one.

There is to be no dispute as to the discovery of the South pole. Amundsen found it and Capt. Scott is still searching.

American residents of Mexico City have been armed at their request for self protection in case of rebel invasion.

On Tuesday Congress passed an emergency measure placing \$350,000 immediately available for protection of the levees against the Mississippi floods.

The democrats won the election of the entire city ticket at Albuquerque Tuesday. Santa Fe reversed the proceeding and put in a complete republican city administration.

Rodgers, the aviator who was first to cross the continent in an aeroplane met death at Long Beach, Calif., Wednesday afternoon, falling 200 feet into the surf and buried in the wreckage of his biplane.

February 14th will hereafter be a holiday in Arizona and known as Admission day.

Senator Taylor of Tennessee, "Fiddling Bob" is dead after a long illness.

The New Mexico legislature is tired already and voted a week's holiday to recuperate.

Six thousand tons of potatoes have been imported from England to New York.

The Socialist National convention will be held in Indianapolis, beginning May 12.

Kaiser William cautions his Uncle Samuel to beware of the Japanese and their colony of 60,000 in Mexico.

The Mississippi river at Cairo, Ill., reached the highest stage ever known this week.

The Panama-Pacific International exposition is to last forty-one weeks from February 20, 1915 to Dec. 4.

Through a combination of Republicans and Democrats the Socialists of Milwaukee lost control of the city government by 13,000 votes.

Jury in the sugar trust trial for criminal violation of the Sherman anti-trust law disagreed after a long session.

Texas democrats decided for the convention method of selecting delegates to Baltimore instead of the preferential primary stunt.

A bill now in Congress would change the presidential inauguration day from March 4 to the last Thursday in April.

San Francisco has voted to approve the municipal ownership of the telephone by two to one. Also voted a bond issue of \$8,000,000 for a new city hall.

Hillman, the Seattle millionaire spent \$65,000 to keep out of prison charged with using the mails to defraud. He will spend two years and six months in jail.

In the Wisconsin primaries La Follette first, Taft second and Roosevelt third for the republicans. Woodrow Wilson was ahead of Champ Clark for the Democratic nomination.

English miners vote against accepting the minimum wage measure passed in Parliament and are still on strike. A few have returned to work.

## PATHFINDER PARTY CHARMED WITH CLIFTON

Would not Have Missed Scenic Attractions from Globe to This City on any Account. Pronounce the Roads to be Excellent

Dell M. Potter Met Party at Fish Creek and Conveyed Them to Clifton. Lordsburg Party Will Meet Guests at Duncan

The Los Angeles Examiner pathfinder party composed of Mr. and Mrs. Harvey Herrick and Mr. and Mrs. Chester Lawrence, have arrived in Clifton, delighted that they were not persuaded to divert from the course originally laid down. The party, escorted by five auto loads of Clifton and Safford boosters arrived in Clifton at about 5 p. m. Saturday afternoon and this issue of the Copper Era was delayed in order that the epoch making event should be duly chronicled.

Dell M. Potter, the indefatigable booster of good roads in particular and all things that may aid Greenlee county and the new state, met the party as advance pilot at Fish Creek, on the Tempe-Roosevelt road. There also the Globe bunch foregathered to escort the party to the Silver Belt City. He stayed with the contract until on the arrival of the car in this city he had made good his promises and given the plain "lie" to those interested dogs in the manager who tried every way to mislead Messrs. Herrick and Lawrence and cheat us out of our just due.

The Globe boosters escorted the party to the Gila river where the Graham Chamber of Commerce picked up the trail and they were shown the beauties and wonders of the valley towns. Here they were met by a pilot car manned by H. C. Mix, Jerry Kelly, Sam Abraham and J. F. Nicolls, who furnished the route intelligence from Safford to Sheldon and Clifton. Morgan H. Lloyd and W. L. Bobo of Phoenix came through with the party, Dell M. Potter being their guest. Saturday morning, several autos left Clifton to pick up the visitors and assembled at Sheldon about noon. In the various cars were Dr. and Mrs. Burtch, Mrs. Sam Abraham, Mrs. Mitchell, Miss Terrell and Messrs. John Webster, Mitchell, Jas. Hagan and Miss Davidson.

The tired, dusty and travel-worn visitors alighted at the Clifton and after general introductions to prominent citizens retired to prepare for the entertainment provided by the B. P. O. E. smoker in the Armory Hall. Incidentally Mr. Lawrence had to send in a big batch of news to the Examiner, extolling the beauties of the scenery through which he had passed, and certifying to the fact that the road from Globe to Clifton was in good shape, readily negotiated and far better in all respects than some other stretches since he left Los Angeles.

Mr. Lawrence said when asked by a Copper Era representative, that the road was fully as good as that from Yuma to Phoenix, and in fact, the best part of the trail and the government road from Tempe to Roosevelt. The only delays experienced since leaving the Angel City were on the California stretch between Redlands and Yuma, two days being virtually clipped off the schedule.

Clifton pilots will go with the party Sunday to Duncan where the Lordsburg people will step in and be the entertainers half way to Deming. Dell Potter will stick until the official New Mexico pilots pick them up somewhere between Las Cruces and Albuquerque.

Since leaving Phoenix the trip has been a picnic for all concerned, with no breakdowns or other drawbacks. Messrs. Herrick and Lawrence were profuse in their expressions of delight with the Arizona trip and will leave the state thoroughly impressed with the desirability of having Clifton placed indelibly on the map of all transcontinental auto tourists.

In the evening the gentlemen of the party were guests of the local lodge of Elks and the Chamber of Commerce at a smoker which had been postponed in order to bring together the representative people of the city to welcome the visitors. It was a perfect success in all respects.

A pleasing feature of the trip was encountering a party of school children, the class of Sophie Shirley at the mouth of the canyon who had been pleasuring and flower-gathering on the Saturday holiday. The auto party was showered with Arizona poppies and other early spring bloom, and came into the city decorated with Arizona blossoms.

Thus auspiciously has dawned a new era in the development of Clifton and Greenlee county. They are henceforth on the map as presenting scenic attractions to charm and chain the globe trotter who annually crosses this great land from coast to coast in search of pleasure, recreation and health.

Later in the evening three cars of Safford boosters came in, having started about two hours after the guest party. In the party were John J. Bird, no. E. W. Clayton and Chas. T. Solomon who met the guests with their Globe escort in behalf of the newly organized Graham County Chamber of Commerce. They were accompanied by their wives and George Ellidge of Safford, Prof. Mathews of Thatcher, Miles Ray of Ray and the Misses Cliff of Thatcher. They will accompany the party to Duncan. John Birdno says that the trip from Solomonville to Clifton can be easily made under fair conditions in three or four hours.
